Summary

Eager to leverage technical and professionals skills in a dynamic systems development team. My range of professional roles spanning the last three years include:

* Front-end development (HTML, CSS, JS, React JS, Next JS, Bootstrap, Material UI),
* Backend Development (Node JS, .NET core, Express APIs),
* Codeless development (Power BI, Google DIalogFlow, Scratch),
* Database management (MS SQL, My SQL, Mongo Db)
* IoT development
* Technical support.

I offer a unique blend of specialized talent as a Full-stack developer in addition to having a good grasp of the ICT techno-sphere. My most notable career highlight is development of a full-stack web and IoT accident tracking platform to help speed up insurance claims processing. Currently working as an API developer at NCBA group

Experience

API Developer
NCBA Group

Jun 2022 - Present (3 months +)
* Developing APIs and microservices for data relay across software solutions. Technologies utilised include Node js, .NET core, and SQL Databases
* Cross-system integration for backend solutions
* Manage external developments by vendors
* System support

Information Technology Intern
Teachers service Commission - Kenya

Mar 2022 - May 2022 (3 months)
* System support for software solutions
* Trained technical staff and end users about software solutions. Notably spearheaded new system training for 800+ staff members at the head quarters and 1000+ in regional offices
* Active Directory administration
* Hardware/network/technical support

Intern (ICT)
Minet Kenya

May 2021 - Mar 2022 (11 months)
* IoT and Telematics developer. Research and development on accident tracking mechanism deployable on client vehicles to alert the insurer in the event one happens

* Developed Web and Whatsapp chatbots using multiple codeless solutions including Google Dialogflow, Freshworks, and IBM Watson
* Fullstack (Front-end, Backend) web developer. Used figma for UI design and implemented solutions to fit business needs
* Software/Network/Hardware support

Intern
Minet Kenya
Apr 2019 - Aug 2019 (5 months)
* Chat-bot developer using Google Dialogflow
* Frontend web developer (HTML, CSS, Bootstrap, Figma, GIMP)
* Data entry and analysis using Microsoft Power BI
* Software/Network/Hardware support

Education

Jomo Kenyatta University of Agriculture and Technology
Bsc Mathematics and Computer Science, Applied Mathematics
2016 - 2021

Licenses & Certifications

Responsive Web Design - freeCodeCamp

Front-End Web UI Frameworks and Tools: Bootstrap 4 - Coursera Course Certificates
Z7N5N337HEZG

JavaScript Algorithms and Data Structures - freeCodeCamp

Introduction to IoT - Cisco Networking Academy

Skills

Full-Stack Development • Hardware • Training & Development • Technical Support • Active Directory • Node • Express.js • Relational Databases • front-end web development • MERN Stack
